PROFESSIONAL SUMMARY

Dynamic and results-driven Senior Frontend & Full Stack Engineer with 13+ years of experience building scalable, high-performance web applications. Proven expertise in React, Angular, TypeScript, and Node.js, with a strong track record of leading cross-functional teams and delivering complex projects on time. Passionate about clean architecture, test-driven development, and creating exceptional user experiences. Currently seeking fully remote or remote-first opportunities.

TECHNICAL SKILLS

- | | | |
|--------------------|---------------------------|---------------------------|
| ▶ React / Redux | ▶ Angular / AngularJS | ▶ TypeScript / JavaScript |
| ▶ HTML5 / CSS3 | ▶ Bootstrap / Material UI | ▶ Node.js / REST APIs |
| ▶ MongoDB / XML | ▶ jQuery / JSP | ▶ Git / Version Control |
| ▶ Jest / TDD / BDD | ▶ Testim (Automation) | ▶ WebRTC |
| ▶ MEAN Stack | ▶ Agile / Scrum | ▶ UX / Responsive Design |

WORK EXPERIENCE

Software Engineer Checkventory

Aug 2021 – Present

- Built progressive web applications using React, TypeScript, Material UI, HTML5/CSS3, and Bootstrap, delivering responsive and accessible user interfaces.
- Drove UX research and improvement initiatives using Card Sorting, Personas, Scenarios, Use Cases, User Interviews, Workflow Diagrams, and Diary Studies to shape product direction.
- Translated UX research insights into tangible interface improvements, bridging the gap between user needs and engineering implementation.
- Led adoption of TDD and BDD practices using Jest, improving test coverage and code reliability.
- Implemented Redux for cross-platform state management, reducing UI bugs by streamlining data flow.
- Designed and integrated REST APIs ensuring seamless front-end/back-end communication.
- Automated regression testing with Testim across key workflows, reducing manual QA effort.
- Managed codebase and release cycles using Git, collaborating effectively with distributed teams.

Senior Developer / Team Lead Jivox, India

Aug 2016 – Aug 2018

- Led and mentored a team of 5 frontend developers across agile sprints, consistently hitting delivery targets.
- Improved on-time delivery rates by owning full project lifecycle: requirements, scoping, estimation, and delivery.
- Translated UX prototypes into pixel-perfect, performant interfaces aligned with business objectives.
- Developed a MEAN stack ad test automation environment supporting 60+ websites without style conflicts.
- Conducted QA testing and team retrospectives to continuously raise code quality and product standards.

Widget Engineer Jivox, India

Jul 2014 – Jul 2016

- Designed and developed custom widgets and SPA applications using React, Angular, Bootstrap, and Node.js.
- Built and maintained a WebRTC stack with JavaScript-based video metrics tracking.

- Delivered web app solutions for leading US automotive and cosmetics clients, improving customer engagement.
- Developed HTML5/CSS3/JavaScript-based ad creatives for web pages in a flash-free environment.

Associate UI Developer Exilant Technologies

Aug 2012 – Jul 2014

- Coded accessible, standards-compliant UIs using HTML5, JavaScript, JSP, jQuery, and CSS3.
- Coordinated with UX teams to resolve development issues rapidly and improve customer satisfaction.
- Optimised application performance for speed and scalability across various business domains.
- Delivered pixel-accurate layouts under tight deadlines in a fast-paced collaborative environment.

EDUCATION

M.Sc. Computer Science (Advanced Software Development)

Aug 2018 – Sep 2019

Technological University Dublin (TU Dublin)

- Built a responsive MEAN stack hotel booking application with REST API integration.
- Dissertation: Measuring mental workload on JavaScript events.

Bachelor of Engineering

2009 – 2012

KSIT, India

Diploma in Computer Science

2005 – 2008

VET

AWARDS & ACHIEVEMENTS

- Jivox 'Above and Beyond' Award — November 2016
- Jivox MVP of the Year — November 2018
- IELTS Score: 7.5 / 9 — October 2019
